Analytic subject index

Actinide compounds
– Pressure effects upon the magnetization of — - Brooks 190 (1993) 55
– High-pressure behavior of CmBi and UBi - Gensini et al. 190 (1993) 75
Actinides
– Electronically driven volume collapses of bantam-heavy actinide elements at high pressure - Johansson et al. 190 (1993) 12
– Systematics and anomalies in the equations of states for the lanthanide and actinide elements - Holzapfel 190 (1993) 21
– Chemical pressure in actinide systems - Fournier 190 (1993) 50
Amorphous films
– Characteristics of spin-coated metal-modified arsenic selenide films - Eze and Okeke 190 (1993) 136
As_2Se_3, metal-modified
– Characteristics of spin-coated metal-modified arsenic selenide films - Eze and Okeke 190 (1993) 136

Bi
– Calculations for bismuth of consequences of nonlinearities in the theory of second sound - Coleman and Lai 190 (1993) 247
Brillouin scattering
– — on UTe single crystals - Mendik and Wachter 190 (1993) 72
Bulk modulus
– High-pressure behavior of CmBi and UBi - Gensini et al. 190 (1993) 75
– Developments and new possibilities in high pressure powder diffraction with synchrotron radiation. Results for cerium metal and U_6Fe - Staun Olsen et al. 190 (1993) 92

Cerium
– Onset of f-bonding in light actinide and lanthanide metals at ultrahigh pressures - Vohra 190 (1993) 1
– Chalcogenides and pnictides of — and uranium under high pressure - Léger 190 (1993) 84
– Developments and new possibilities in high pressure powder diffraction with synchrotron radiation. Results for — metal and U_6Fe - Staun Olsen et al. 190 (1993) 92
Chalcogenides
– — and pnictides of cerium and uranium under high pressure - Léger 190 (1993) 84
Charge conjugation symmetry
– — and the nonexistence of the photon's static magnetic field - Barron 190 (1993) 307
– Reply to comment: " — and the nonexistence of the photon's static magnetic field" - Evans 190 (1993) 310
$C(NH_2)_3Al(SO_4)_2 \cdot 6H_2O$
– Superposition-model investigations of the zero-field splittings and their stress and temperature dependence for Mn^{2+} in guanidinium aluminum sulfate hexahydrate - Zheng 190 (1993) 413
$CoCr_2O_4$, spinel-type
– Pressure derivatives of the Curie temperature of spinel-type $CoCr_2O_4$ and $CoMn_2O_4$ - Tamura 190 (1993) 150

$CoMn_2O_4$, spinel-type
– Pressure derivatives of the Curie temperature of spinel-type $CoCr_2O_4$ and $CoMn_2O_4$ - Tamura 190 (1993) 150
$Co_{1.2-x}Zn_xTi_{0.2}Fe_{1.6}O_4$
– Magnetic ordering in a Zn substituted Co–Ti–Fe–O ferrite system - Upadhyay et al. 190 (1993) 183
CPA
– Electronic properties of $Pt_{0.75}(Mn_{1-x}Cr_x)_{0.25}$ alloys - Jezierski 190 (1993) 225
Crystal field
– —and complex phase diagram in hexagonal $PrGa_2$ - Ball et al. 190 (1993) 214
Crystal structure
– First principles studies of—s of f elements - Eriksson et al. 190 (1993) 5
– Chalcogenides and pnictides of cerium and uranium under high pressure - Léger 190 (1993) 84
Curie temperature, pressure dependence
– Pressure derivatives of the Curie temperature of spinel-type $CoCr_2O_4$ and $CoMn_2O_4$ - Tamura 190 (1993) 150

Defect formation
– Electronically induced changes in structural properties of solid Kr - Fugol' et al. 190 (1993) 347
Delocalization
– Electronically driven volume collapses of bantam-heavy actinide elements at high pressure - Johansson et al. 190 (1993) 12
Delocalization, f-electron
– Volume dependence of f-electron structure in intermetallic compounds of Eu and Np from Mössbauer high pressure studies - Potzel et al. 190 (1993) 98
Diffusivity in solids
– Microscopic methods enabling to look upon—(I) - Kwater et al. 190 (1993) 199
$DyFe_4Al_8$
– Spin glass behaviour and magnetic anisotropy in—single crystals - Talik et al. 190 (1993) 361

Elastic constants
– Chalcogenides and pnictides of cerium and uranium under high pressure - Léger 190 (1993) 84
– Computation of collective excitations and—of expanded trigonal tellurium - Gopala Rao and Venkatesh 190 (1993) 417
Elastic properties
– Brillouin scattering on UTe single crystals - Mendik and Wachter 190 (1993) 72
Electrical resistivity
– High-pressure thermophysical properties of solid and liquid uranium - Boivineau et al. 190 (1993) 31
– Spin glass behaviour and magnetic anisotropy in $DyFe_4Al_8$ single crystals - Talik et al. 190 (1993) 361
Electronic levels, localized
– Period doubling in quasi-one-dimensional systems - Schneider and Sigmund 190 (1993) 352
Electronic properties
– —of $Pt_{0.75}(Mn_{1-x}Cr_x)_{0.25}$ alloys - Jezierski 190 (1993) 225
Electronic structure
– —s and improvement of magnetic properties of $RFe_{12}X$ (R = Y, Ce, Gd; X = N, C) - Asano et al. 190 (1993) 155

Enthalpy
– High-pressure thermophysical properties of solid and liquid uranium - Boivineau et al. 190 (1993) 31
EPR
– Superposition-model investigations of the zero-field splittings and their stress and temperature dependence for Mn^{2+} in guanidinium aluminum sulfate hexahydrate - Zheng 190 (1993) 413
Equations of state
– Systematics and anomalies in the — s for the lanthanide and actinide elements - Holzapfel 190 (1993) 21
ESR
– Electron spin resonance of $La_{2-x}Sr_xNiO_{4+\delta}$ - Sánchez et al. 190 (1993) 177
Excitons
– Electronically induced changes in structural properties of solid Kr - Fugol' et al. 190 (1993) 347

f-band metals
– Onset of f-bonding in light actinide and lanthanide metals at ultrahigh pressures - Vohra 190 (1993) 1
f-electron structure
– Volume dependence of — in intermetallic compounds of Eu and Np from Mössbauer high pressure studies - Potzel et al. 190 (1993) 98
1/f noise
– Experimental studies of — in n-GaAs - Hooge and Tacano 190 (1993) 145
Ferromagnetism
– High pressure μSR studies: Gd metal - Mutzbauer et al. 190 (1993) 40
– The electrical resistance of USe under high pressure - Link et al. 190 (1993) 68
Fibonacci superlattices
– Softening of magnetorotons in a semi-infinite Fibonacci superlattice - Huang and Gumbs 190 (1993) 383
First principle calculations
– Onset of f-bonding in light actinide and lanthanide metals at ultrahigh pressures - Vohra 190 (1993) 1
FMR
– Magnetic anisotropy investigation in (2 1 0)-oriented Bi-substituted magnetic garnets - Maryško et al. 190 (1993) 190
Free-carrier absorption
– Effect of nonpolar optical phonon scattering on — in heavily doped n-type germanium - Wu and Lin 190 (1993) 398

Gadolinium
– High pressure μSR studies: Gd metal - Mutzbauer et al. 190 (1993) 40
Gd^{3+}, in fluorite structure crystals
– The estimation of phonon-induced contributions to the second-order spin-lattice coefficients for Gd^{3+} in crystals with fluorite structure - Pastusiak 190 (1993) 237
Ge, n-type nonparabolic
– Effect of nonpolar optical phonon scattering on free-carrier absorption in heavily doped n-type germanium - Wu and Lin 190 (1993) 398

Harmonic approximation
– Self-consistent mean-field study of the anisotropic two-dimensional *XY* model - Spišák 190 (1993) 407
Harmonic systems, disordered
– Spatio-temporal evolution of local temperature excitations in disordered harmonic systems - Wagner et al. 190 (1993) 285
Heavy electron
– Pressure studies of 4f and 5f intermetallics with strong electronic correlations - Thompson 190 (1993) 61
Heavy fermion compounds
– Magnetoacoustic oscillations in cerium-based heavy fermion systems - Wojciechowski and Kowalewski 190 (1993) 231
Heavy fermions
– The electrical resistance of USe under high pressure - Link et al. 190 (1993) 68
High pressure
– First principles studies of crystal structures of f elements - Eriksson et al. 190 (1993) 5
– Electronically driven volume collapses of bantam-heavy actinide elements at— - Johansson et al. 190 (1993) 12
– High-pressure thermophysical properties of solid and liquid uranium - Boivineau et al. 190 (1993) 31
– Pressure effects upon the magnetization of actinide compounds - Brooks 190 (1993) 55
– High-pressure behavior of CmBi and UBi - Gensini et al. 190 (1993) 75
– Chalcogenides and pnictides of cerium and uranium under— - Léger 190 (1993) 84
– Developments and new possibilities in—powder diffraction with synchrotron radiation. Results for cerium metal and U_6Fe - Staun Olsen et al. 190 (1993) 92
– Volume dependence of f-electron structure in intermetallic compounds of Eu and Np from Mössbauer—studies - Potzel et al. 190 (1993) 98
High pressure gas system
– High pressure μSR studies: Gd metal - Mutzbauer et al. 190 (1993) 40
High temperature
– High-pressure thermophysical properties of solid and liquid uranium - Boivineau et al. 190 (1993) 31
Hopkinson effect
– Pressure derivatives of the Curie temperature of spinel-type $CoCr_2O_4$ and $CoMn_2O_4$ - Tamura 190 (1993) 150
Hybridization, 5f-electron
– NpX_3 compounds under high pressure - Zwirner et al. 190 (1993) 107
Hyperfine interactions
– NpX_3 compounds under high pressure - Zwirner et al. 190 (1993) 107

Inelastic neutron scattering
– Relaxation constant of a Pr^{3+} ion in $LaAl_3$ by— - Alekseev and Bührer 190 (1993) 131
Intermetallics
– Volume dependence of f-electron structure in intermetallic compounds of Eu and Np from Mössbauer high pressure studies - Potzel et al. 190 (1993) 98
Inverse scattering
– Inversion of neutron reflection data - Lipperheide et al. 190 (1993) 377

IQHE
– Electric field dependent mobility edge and theory of the breakdown of the integer quantum Hall effect - Riess 190 (1993) 366

Kondo effect
– Pressure studies of 4f and 5f intermetallics with strong electronic correlations Thompson 190 (1993) 61
– The electrical resistance of USe under high pressure - Link et al. 190 (1993) 68
Kondo lattice
– The electrical resistance of USe under high pressure - Link et al. 190 (1993) 68
– NpX_3 compounds under high pressure - Zwirner et al. 190 (1993) 107
Kr
– Electronically induced changes in structural properties of solid — - Fugol' et al. 190 (1993) 347

Lanthanides
– Systematics and anomalies in the equations of states for the lanthanide and actinide elements - Holzapfel 190 (1993) 21
$La_{2-x}Sr_xNiO_{4+\delta}$
– Electron spin resonance of — - Sánchez et al. 190 (1993) 177
$LiGa_5O_8 : Mn^{4+}$
– Radiative and nonradiative processes in $LiGa_5O_8 : Mn^{4+}$ - Da Fonseca and Abritta 190 (1993) 327
Linear muffin-tin orbital calculations
– Pressure effects upon the magnetization of actinide compounds - Brooks 190 (1993) 55
Local compressibility
– Superposition-model investigations of the zero-field splittings and their stress and temperature dependence for Mn^{2+} in guanidinium aluminum sulfate hexahydrate - Zheng 190 (1993) 413
Localization
– Chemical pressure in actinide systems - Fournier 190 (1993) 50
$LuFe_{11-x}Al_xTi$
– Structure, magnetic properties and the ^{57}Fe Mössbauer effect in the — system - Vagizov et al. 190 (1993) 126
Luminescence
– Radiative and nonradiative processes in $LiGa_5O_8 : Mn^{4+}$ - Da Fonseca and Abritta 190 (1993) 327
– Electronically induced changes in structural properties of solid Kr - Fugol' et al. 190 (1993) 347

Magnetic anisotropy
– — investigation in (2 1 0)-oriented Bi-substituted magnetic garnets - Maryško et al. 190 (1993) 190
– Spin glass behaviour and — in $DyFe_4Al_8$ single crystals - Talik et al. 190 (1993) 361
Magnetic field of photons
– Charge conjugation symmetry and the nonexistence of the photon's static magnetic field - Barron 190 (1993) 307
– Reply to comment: "Charge conjugation symmetry and the nonexistence of the photon's static magnetic field" - Evans 190 (1993) 310
Magnetic garnets
– Magnetic anisotropy investigation in (2 1 0)-oriented Bi-substituted — - Maryško et al. 190 (1993) 190

Magnetic interactions
– Intersublattice interactions in rare earth compounds of the types $R_2(Co,Al)_{17}$ and $R_2(Fe,Al)_{17}$ - Li et al. 190 (1993) 121
– Magnetic behaviour of γ-phase hydrides $RCo_3H_{\sim 4}$ in high magnetic fields - Bartashevich et al. 190 (1993) 315
Magnetic modulated structure
– NpX_3 compounds under high pressure - Zwirner et al. 190 (1993) 107
Magnetic moments
– Electronic structures and improvement of magnetic properties of $RFe_{12}X$ (R = Y, Ce, Gd; X = N, C) - Asano et al. 190 (1993) 155
Magnetic ordering
– — in a Zn substituted Co–Ti–Fe–O ferrite system - Upadhyay et al. 190 (1993) 183
Magnetic phase diagram, $PrGa_2$
– Crystal field and complex phase diagram in hexagonal $PrGa_2$ - Ball et al. 190 (1993) 214
Magnetic properties
– Pressure effects upon the magnetization of actinide compounds - Brooks 190 (1993) 55
Magnetic structure, $PrGa_2$
– Crystal field and complex phase diagram in hexagonal $PrGa_2$ - Ball et al. 190 (1993) 214
Magnetization
– Intersublattice interactions in rare earth compounds of the types $R_2(Co,Al)_{17}$ and $R_2(Fe,Al)_{17}$ - Li et al. 190 (1993) 121
– Structure, magnetic properties and the ^{57}Fe Mössbauer effect in the $LuFe_{11-x}Al_xTi$ system - Vagizov et al. 190 (1993) 126
– Magnetic behaviour of γ-phase hydrides $RCo_3H_{\sim 4}$ in high magnetic fields - Bartashevich et al. 190 (1993) 315
Magnetoacoustic oscillations
– — in cerium-based heavy fermion systems - Wojciechowski and Kowalewski 190 (1993) 231
Magnetorotons
– Softening of — in a semi-infinite Fibonacci superlattice - Huang and Gumbs 190 (1993) 383
Martensitic transformation
– Transformation behaviour of NiTi in relation to thermal cycling and deformation - Matsumoto 190 (1993) 115
Mn^{2+}
– Superposition-model investigations of the zero-field splittings and their stress and temperature dependence for — in guanidinium aluminum sulfate hexahydrate - Zheng 190 (1993) 413
Mobility edge
– Electric field dependent — and theory of the breakdown of the integer quantum Hall effect - Riess 190 (1993) 366
Model calculations
– Electronically driven volume collapses of bantam-heavy actinide elements at high pressure - Johansson et al. 190 (1993) 12
Molecular reorientation
– Dipole–dipole spin relaxation in solids - Palmer et al. 190 (1993) 267
Monobismuthides
– High-pressure behavior of CmBi and UBi - Gensini et al. 190 (1993) 75
Monochalcogenides
– Chemical pressure in actinide systems - Fournier 190 (1993) 50

Mössbauer effect
– Volume dependence of f-electron structure in intermetallic compounds of Eu and Np from Mössbauer high pressure studies - Potzel et al. 190 (1993) 98
– NpX_3 compounds under high pressure - Zwirner et al. 190 (1993) 107
– Structure, magnetic properties and the ^{57}Fe — in the $LuFe_{11-x}Al_xTi$ system - Vagizov et al. 190 (1993) 126
Mössbauer spectroscopy
– ^{170}Yb Mössbauer and neutron diffraction investigation of the antiferromagnetic phase in the Kondo lattices YbP and YbN - Le Bras et al. 190 (1993) 333
Muon spin rotation
– High pressure μSR studies: Gd metal - Mutzbauer et al. 190 (1993) 40

n-GaAs
– Experimental studies of $1/f$ noise in — - Hooge and Tacano 190 (1993) 145
Neutron diffraction
– ^{170}Yb Mössbauer and — investigation of the antiferromagnetic phase in the Kondo lattices YbP and YbN - Le Bras et al. 190 (1993) 333
Neutron electrical polarizability
– Total cross section of lead and contributions from fundamental neutron interactions - Granada et al. 190 (1993) 259
Neutron specular reflection
– Inversion of neutron reflection data - Lipperheide et al. 190 (1993) 377
NiTi
– Transformation behaviour of — in relation to thermal cycling and deformation - Matsumoto 190 (1993) 115
Nonlinear physics
– Calculations for bismuth of consequences of nonlinearities in the theory of second sound - Coleman and Lai 190 (1993) 247

Optical phonon scattering
– Effect of nonpolar — on free-carrier absorption in heavily doped n-type germanium - Wu and Lin 190 (1993) 398
Orbit–lattice interaction
– The estimation of phonon-induced contributions to the second-order spin-lattice coefficients for Gd^{3+} in crystals with fluorite structure - Pastusiak 190 (1993) 237

Pb
– Total cross section of lead and contributions from fundamental neutron interactions - Granada et al. 190 (1993) 259
Period doubling
– — in quasi-one-dimensional systems - Schneider and Sigmund 190 (1993) 352
Phase transformation
– Electronically driven volume collapses of bantam-heavy actinide elements at high pressure - Johansson et al. 190 (1993) 12
– Systematics and anomalies in the equations of states for the lanthanide and actinide elements - Holzapfel 190 (1993) 21
– Chalcogenides and pnictides of cerium and uranium under high pressure - Léger 190 (1993) 84

Phase transition, crystallographic
– Pressure-induced phase transitions of phosphorus–arsenic alloys - Shirotani et al. 190 (1993) 169
Phase transition, pressure-induced
– Pressure-induced phase transitions of phosphorus–arsenic alloys - Shirotani et al. 190 (1993) 169
Photons, magnetic field of
– Charge conjugation symmetry and the nonexistence of the photon's static magnetic field - Barron 190 (1993) 307
– Reply to comment: "Charge conjugation symmetry and the nonexistence of the photon's static magnetic field" - Evans 190 (1993) 310
Pnictides
– Chalcogenides and — of cerium and uranium under high pressure - Léger 190 (1993) 84
Polarons
– Period doubling in quasi-one-dimensional systems - Schneider and Sigmund 190 (1993) 352
Powder diffraction
– Developments and new possibilities in high pressure — with synchrotron radiation. Results for cerium metal and U_6Fe - Staun Olsen et al. 190 (1993) 92
Pressure
– Chemical — in actinide systems - Fournier 190 (1993) 50
– — studies of 4f and 5f intermetallics with strong electronic correlations - Thompson 190 (1993) 61
$PrGa_2$
– Crystal field and complex phase diagram in hexagonal — - Ball et al. 190 (1993) 214
$Pr_xLa_{1-x}Al_3$
– Relaxation constant of a Pr^{3+} ion in $LaAl_3$ by inelastic neutron scattering - Alekseev and Bührer 190 (1993) 131
Proximity effect
– Single-particle — between superconductors through a tunneling barrier - Shaternik and Matjushkin 190 (1993) 241
$P_{1-x}As_x$
– Pressure-induced phase transitions of phosphorus–arsenic alloys - Shirotani et al. 190 (1993) 169
$Pt_{0.75}(Mn_{1-x}Cr_x)_{0.25}$
– Electronic properties of — alloys - Jezierski 190 (1993) 225
$Pt_{1-x}Cr_x$
– Electronic properties of $Pt_{0.75}(Mn_{1-x}Cr_x)_{0.25}$ alloys - Jezierski 190 (1993) 225
$Pt_{1-x}Mn_x$
– Electronic properties of $Pt_{0.75}(Mn_{1-x}Cr_x)_{0.25}$ alloys - Jezierski 190 (1993) 225
Pu
– Chemical pressure in actinide systems - Fournier 190 (1993) 50

QHE
– Softening of magnetorotons in a semi-infinite Fibonacci superlattice - Huang and Gumbs 190 (1993) 383
QMS
– Microscopic methods enabling to look upon diffusivity in solids (II) - Kwater et al. 190 (1993) 209
QNS
– Microscopic methods enabling to look upon diffusivity in solids (I) - Kwater et al. 190 (1993) 199
Quasi-1D systems
– Period doubling in quasi-one-dimensional systems - Schneider and Sigmund 190 (1993) 352

Rayleigh scattering
– Microscopic methods enabling to look upon diffusivity in solids (I) - Kwater et al. 190 (1993) 199
$RCo_3H_{\sim 4}$
– Magnetic behaviour of γ-phase hydrides — in high magnetic fields - Bartashevich et al. 190 (1993) 315
Relaxation constants
– Relaxation constant of a Pr^{3+} ion in $LaAl_3$ by inelastic neutron scattering - Alekseev and Bührer 190 (1993) 131
Resistivity
– Pressure studies of 4f and 5f intermetallics with strong electronic correlations - Thompson 190 (1993) 61
$RFe_{11}Ti$
– Electronic structures and improvement of magnetic properties of $RFe_{12}X$ (R = Y, Ce, Gd; X = N, C) - Asano et al. 190 (1993) 155
RKKY interaction
– Pressure studies of 4f and 5f intermetallics with strong electronic correlations - Thompson 190 (1993) 61
$R_2(M, Al)_{17}$
– Intersublattice interactions in rare earth compounds of the types $R_2(Co,Al)_{17}$ and $R_2(Fe,Al)_{17}$ - Li et al. 190 (1993) 121

Scattering mechanisms
– The electrical resistance of USe under high pressure - Link et al. 190 (1993) 68
Schrödinger equation
– Schrödinger's real wave equation (continued) - Chen 190 (1993) 256
Second sound
– Calculations for bismuth of consequences of nonlinearities in the theory of — - Coleman and Lai 190 (1993) 247
Sound velocity
– High-pressure thermophysical properties of solid and liquid uranium - Boivineau et al. 190 (1993) 31
Spin-glass behaviour
– — behaviour and magnetic anisotropy in $DyFe_4Al_8$ single crystals - Talik et al. 190 (1993) 361
Spin-lattice coefficients
– The estimation of phonon-induced contributions to the second-order — for Gd^{3+} in crystals with fluorite structure - Pastusiak 190 (1993) 237
Spin relaxation
– Dipole–dipole — in solids - Palmer et al. 190 (1993) 267
Spin turning
– High pressure μSR studies: Gd metal - Mutzbauer et al. 190 (1993) 40
Subthreshold irradiation
– Electronically induced changes in structural properties of solid Kr - Fugol' et al. 190 (1993) 347
Superconductors
– Single-particle proximity effect between — through a tunneling barrier - Shaternik and Matjushkin 190 (1993) 241

Superdiffusion
– Spatio-temporal evolution of local temperature excitations in disordered harmonic systems - Wagner et al. 190 (1993) 285
Synchrotron
– Onset of f-bonding in light actinide and lanthanide metals at ultrahigh pressures - Vohra 190 (1993) 1

TB LMTO
– Electronic properties of $Pt_{0.75}(Mn_{1-x}Cr_x)_{0.25}$ alloys - Jezierski 190 (1993) 225
TDPAC
– Microscopic methods enabling to look upon diffusivity in solids (II) - Kwater et al. 190 (1993) 209
Te, trigonal
– Computation of collective excitations and elastic constants of expanded trigonal tellurium - Gopala Rao and Venkatesh 190 (1993) 417
Thermal cycling
– Transformation behaviour of NiTi in relation to — and deformation - Matsumoto 190 (1993) 115
Thorium
– Onset of f-bonding in light actinide and lanthanide metals at ultrahigh pressures - Vohra 190 (1993) 1
Transformation
– Onset of f-bonding in light actinide and lanthanide metals at ultrahigh pressures - Vohra 190 (1993) 1
Tunneling barriers
– Single-particle proximity effect between superconductors through a tunneling barrier - Shaternik and Matjushkin 190 (1993) 241

Uranium
– High-pressure thermophysical properties of solid and liquid — - Boivineau et al. 190 (1993) 31
– Chalcogenides and pnictides of cerium and — under high pressure - Léger 190 (1993) 84
Uranium compounds
– Developments and new possibilities in high pressure powder diffraction with synchrotron radiation. Results for cerium metal and U_6Fe - Staun Olsen et al. 190 (1993) 92
Uranium monotelluride
– Brillouin scattering on UTe single crystals - Mendik and Wachter 190 (1993) 72

Valence fluctuations
– The electrical resistance of USe under high pressure - Link et al. 190 (1993) 68
Vibronic transitions
– Radiative and nonradiative processes in $LiGa_5O_8 : Mn^{4+}$ - Da Fonseca and Abritta 190 (1993) 327
Volume expansion
– High-pressure thermophysical properties of solid and liquid uranium - Boivineau et al. 190 (1993) 31

X-ray diffraction
– Onset of f-bonding in light actinide and lanthanide metals at ultrahigh pressures - Vohra 190 (1993) 1
XY model
– Self-consistent mean-field study of the anisotropic two-dimensional — - Spišák 190 (1993) 407

YbN
– ^{170}Yb Mössbauer and neutron diffraction investigation of the antiferromagnetic phase in the Kondo lattices YbP and — - Bras et al. 190 (1993) 333
YbP
– ^{170}Yb Mössbauer and neutron diffraction investigation of the antiferromagnetic phase in the Kondo lattices — and YbN - Bras et al. 190 (1993) 333
